

INSIGHT

CLOUD-BASED FLEET MANAGEMENT

AMETEK Prestolite Power's Insight software provides advanced monitoring, data recording and increased communication between devices to help lengthen your fleets' battery life and optimize productivity 24 hours a day, 7 days a week, 365 days a year.

Nine Battery Measures:

1. Watering status
2. Wireless connection status
3. Charge connects per day
4. Battery over charge
5. Battery over discharge
6. Full charge voltage
7. Equalize status
8. Battery temperature
9. Battery usage (EBU)

Two Charger Measures:

1. Wireless connection status
2. Charger faults

Always Monitoring Your Assets

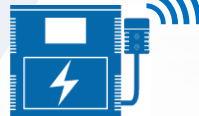

- Configure your dashboard to show only the measures you require
- Access your dashboard from your phone, tablet or PC
- Receive email notifications tailored to the specific data you need
- Perform in-depth analysis whenever necessary

Gateway¹

Wireless Radio Communication

WBID Pro

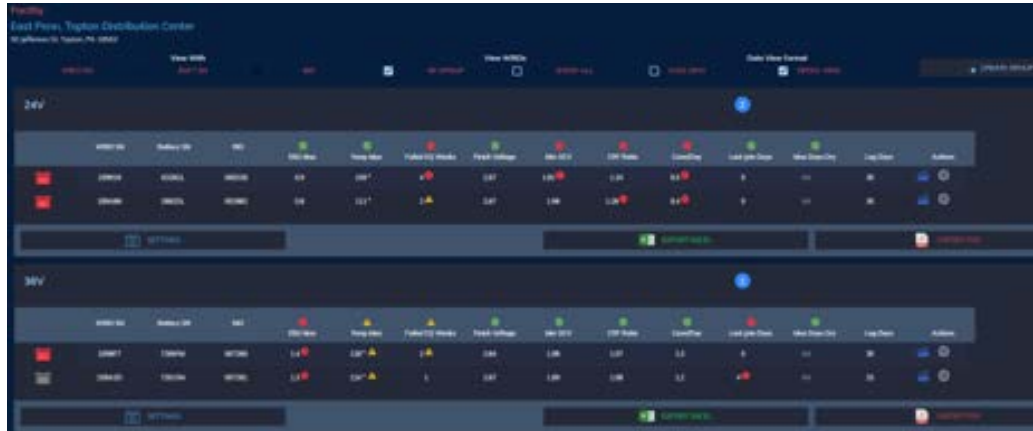

¹The gateways come with a three-year warranty
